All information may not apply to your order, select only the information that is applicable.

Crystal Size:

Crystal Shape:

Image Name: (if custom type custom)

Text exactly as it should read in the crystal:

Font Type:

Image Type: 2D 3D Combine both (If 2d one price if 3d another price if both additional pricing)

AND

If submitting a photo or additional images to be placed in the crystal.

File Name(s):

Orientation:

The orientation you choose may minimize the amount of available etching area. It is our recommendation that you allow Laser Crystal Works to choose the orientation that allows maximum etching area. Would you like for Laser Crystal Works to choose the orientation of your image?

Yes. Please use the orientation that allows maximum etching area.

No. Please use the orientation I choose.

List other special instructions (Example: place text below/above image, remove background etc. Additional fees may apply, depending on special instructions, and will be added to your total after your order is submitted.):

Preparing A Photo

FOR QUALITY PURPOSES PLEASE FOLLOW ALL SPECS FOR PREPARING A PHOTO

For best etching quality, scan an original photo (if possible no copies please).

Scan your photo to 300dpi and 200% in size, 300% for photos smaller than wallet size. Save your photo as a bmp, tiff, jpeg, etc.

If your photo is coming from a digital camera send it as is, you will be notified if the image is not usable.

If you choose to have the background removed it is recommended that you allow the qualified employees, of LCW, to perform this task. If you choose to remove the background yourself keep in mind that the quality is going to be as good as you make it. Make the background black with a RGB value of 0,0,0 if you fail to do this spots will show up on your background.

Submitting A Photo

Please e-mail your photo along with this form to order@lasercrystalworks.com
OR e-mail your photo and fax this form to 972-576-2209 Attention: Melissa
